# NATIONAL ENZYME COMPANY NAMES AMIDON CHIEF OPERATING OFFICER

Forsyth, MO—National Enzyme Company is proud to announce the recent addition to their executive team, Charles Amidon. Mr. Amidon will serve as Chief Operating Officer (C.O.O.) of National Enzyme Company. He will oversee many departments within the company, including; Information Systems, Manufacturing, Quality Assurance and Purchasing.

Mr. Amidon's career within the nutritional industry spans over 30 years and is stellar to say the least. His most recent achievement involves the development of Global Nutritional Solutions, a professional company working in the nutritional industry that specializes in general business review and enhancement programs. Prior to this, Amidon served as Executive V.P. of HVL, Inc., a nutritional supplement manufacturer in Pittsburgh, Pa and President of Fisher Scientific, North American Operations. His ability to bring companies to their highest level of technological potential and his choice to work for NEC, speaks volumes for both parties.

"I joined National Enzyme because they are remarkable people. National Enzyme maintains a unique position in the industry: they're quality oriented, reliable, here for the duration and dedicated to growth, as opposed to the trend towards consolidation. National Enzyme is an exceptional company," stated Amidon.

Anthony Collier, C.E.O. and President of National Enzyme remarked, "I am most pleased to welcome Mr. Amidon's exclusive skill-set to National Enzyme Company's executive team. Charlie's extensive industry experience will be most valuable as National Enzyme Company continues its growth and expansion in the dietary supplement industry."

Since 1932, National Enzyme Company has been the leader in nutritional enzyme technology. From research and development to marketing support, NEC provides manufacturers and distributors worldwide with comprehensive dietary supplement services while adhering to strict NSF and TGA certified GMPs.
