## NATIONAL ENZYME COMPANY NAMES TWO NEW EXECUTIVES

Forsyth, MO—National Enzyme Company announced today the promotion of Harold Fox to Director of Sales and the promotion of Kevin Hampton to Director of Manufacturing. Mr. Fox will continue his leadership of the Domestic and International sales departments and Mr. Hampton will oversee all manufacturing operations. These two new executive positions are an indication of National Enzyme's continued success and growth within the industry.

“Harold's leadership of the Domestic and International sales teams has resulted in record sales numbers, and I am thrilled that he will be bringing that energy and drive to his role as Director,” says Terese Mansell, President of National Enzyme Company. Mr. Fox's new role will require him to direct and manage both areas of the sales department and achieve or exceed forecasted sales goals.

Mr. Hampton's most recent project was to facilitate the construction of the new manufacturing facility, which opened on April 22. He oversaw all aspects of constructing the state of the art, 10,000 square foot facility and the end result was impressive. “Kevin has done an incredible job in his role as Sr. Manufacturing Manager, and I am fully confident that he will continue to bring great things to NEC in his role as a Director,” stated Mansell.

Since 1932, National Enzyme Company has been the leader in nutritional enzyme technology. From research and development to marketing support, NEC provides manufacturers and distributors worldwide with comprehensive dietary supplement services while adhering to strict NSF and TGA certified GMPs.
